

Multiplying Decent Work – Decent Life!

Project Offer:

2 one year training course per country (7 modules)

Global action becomes effective only when it's based on international solidarity!

Training courses, study visits, public events, photo exhibitions and more...

"A major challenge the international community must face today is to ensure that globalisation is a positive force for all of mankind" (European Consensus on Development, 2005) to ensure that the social dimension of globalisation and decent work as the basis for development needs to be strengthened. Therefore the project has the following objectives:

Overall:

- Contributing to the eradication of poverty, through contributing to the achievement of the **MDGs**, especially **MDG 1** and 1b (**eradicate and decent work**), MDG 3 and esp. 3.2. (**gender equality and increasing wage employment of women**), MDG 7 (environmental sustainability) and MDG 8 (**global partnership for development**)
- Contributing to coherence for development, implementation of human and labour rights, the social dimension of globalisation and decent work.

Specific:

- A well functioning multiplier network in and between 5 CEE countries and Brazil anchors joint international strategies for decent work in trade unions, NGOs and politics.

Through specific activities at national and international levels the project aims at achieving the following objectives:

- Raising awareness for **international strategies and cooperation of trade unions and NGOs** (international solidarity brochure, mobile photo exhibition, public events and seminars, lobby letters, media activities, etc).

- Conciousness build on a broad basis for **the necessity of international strategies and cooperation of trade unions and NGOs** (two training courses for one year, two Speakers Tours 2014 & 2015 solidarity campaigns at national and international levels).

- Project activities are **multiplied and further disseminated and developed by the multipliers network beyond the project** (annual seminars, newsletters, study visits, networking meetings, website and networking platform, lobbying activities).
